Easy and quick deployment on your system The installation process allows you to configure many of the program's features, including file associations (you can tweak this later as well), but it also grants you the possibility to select which components you wish to deploy on your computer.

Highly customizable and easy to use interface The user interface retains the attributes that made Winamp one of the most popular applications all over the world: strategically positioned buttons to allow effortless control over the multimedia files listed in the adjacent playlist window. It benefits from the same "Modern" skin support we've seen since version 3.0, along with support for dozens of color themes for even greater personalization.

Plays all your favorite songs and stations Winamp is compatible with the majority of multimedia files out there and during our tests, we didn't encounter any problems while playing all the files we had on our computer. On top of that, it provides access to a huge Shoutcast Radio Stations collection, so listening to good music is a matter of just a few clicks.

Greatly enhance video and audio effects Extensive audio and video customizations are available, including an equalizer, over 100 visualizations and a handy playlist editor. With Winamp you can also organize and manage all your songs and movies thanks to the built-in 'Library'.

Compatible with your portable device Aside from the multimedia player capabilities, Winamp can also burn selected audio files to a blank CD and can rip audio discs in several formats, including AAC, MP3, WMA and WAV. Last but not least, Winamp can easily be converted into a real portable media player manager, as it can detect connected gadgets to allow you to transfer music in a matter of seconds.

To sum it up Still one of the most popular multimedia players on the market, Winamp supports an impressive range of formats, sports a well-organized interface and is loaded with features and customization, attributes that help it stand out as one of the top choices in this particular software category.
